Verizon Foundation Helps Health Center Expand Electronic Medical Records System

Bourne – The Verizon Foundation has awarded Community Health Center of Cape Cod \$10,350 for the purchase of additional licenses for the Health Center’s electronic medical record (EMR) system. The EMR enables the Health Center to edit, store and retrieve patient information safely and efficiently.

The Verizon grant will be used specifically for EMR licenses for the Health Center’s new office in Bourne. “This is part of our ongoing efforts to bring health care and technology together. We are pleased to support the Health Center’s programs to bring quality health care to all those who need it.” said Richard B. Colon, Regional Director, Verizon External Affairs.

Community Health Center of Cape Cod is a non-profit Federally Qualified Health Center that provides access to health care for adults and children with MassHealth, Commonwealth Care, Medicare, private insurance, or no insurance at all. Services include primary and preventive care, dental care, behavioral health, coordinated case management, and prescription assistance, at locations in Falmouth, Mashpee and Bourne. Visit the Health Center online at chcofcapecod.org
